AUDITORS' COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

January 20, 2020

To the Honorable President and
Members of the Board of Trustees
Village of Worth, Illinois

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Worth, Illinois for the year ended April 30, 2019. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 9, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Village are described in Note 1 to the financial statements. During the current year, the Village adopted Government Accounting Standards Board (GASB) Statement No. 75 – *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. The application of existing policies was not changed during the year ending April 30, 2019. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the Village of Worth, Illinois' financial statements were:

Management's estimates of the net pension liability and other post-employment benefits are based on actuarial estimates and assumptions. We evaluated the key factors of the actuarial reports in determining that they are reasonable in relation to the financial statements taken as a whole.

Management's estimate of the property tax receivable and deferral are based on the tax levy - The actual amount received by the Village may differ from the amount estimated. We evaluated the key factors and assumptions used to develop the receivable in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the depreciation of capital assets is based on the remaining lives of the assets. We evaluated the key factors as assumptions used to develop this estimate in determining they are reasonable in related to the financial statements taken as a whole.

Management's estimate of accounts receivable for the Water & Sewer fund is based on the amount billed and expected to be received by the Village. We evaluated the key factors as assumptions used to develop this estimate in determining they are reasonable in related to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated January 20, 2020.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors.

However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to the management's discussion and analysis, pension related schedules, and budgetary comparison schedules, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were not engaged to report on the other schedules, which accompany the financial statements but are not RSI. We did not audit or perform other procedures on this other information, and we do not express an opinion or provide any assurance on it.

Restriction on Use

This information is intended solely for the use of Board of Trustees of the Village of Worth, Illinois and management of the Village and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,
